

LumiTop 4000: In-Line Display Testing

Lab Specs meet Production Speed!

- » Unique one-shot combination of spectrometer & imaging system for 2D display testing
- » All-in-one display test setup for spatially resolved uniformity (Mura), spectral, and flicker measurements
- » Simultaneous testing of multiple samples to increase throughput and takt time
- » Worldwide established in the display production industry
- » Wide range of lenses from microscope to wide angle, including AR/VR lens

**Large global customer base,
worldwide service!**
