

LumiTop X150: Ultra-High Resolution for Subpixel Metrology

Lab Specs meet Production Speed!

- » 150 MP RGB sensor with 2x2 pixel shifter
- » 600 MP X,Y,Z-images for high-resolution μ -LED and OLED displays
- » Evaluation of luminance and color on subpixel-level for display calibration and defect pixel detection
- » Proven LumiTop principle guarantees highest accuracy and fast 2D measurements
- » Suitable for in-depth R&D as well as production applications

**Large global customer base,
worldwide service!**
