

## Press Release

### **Instrument Systems Appoints Dr. Marc Lünneemann as New CEO**

Munich, January 15<sup>th</sup>, 2026

**Instrument Systems GmbH, a leading provider of high-precision light measurement technology and part of the Konica Minolta Group, has appointed Dr. Marc Lünneemann as its new Chief Executive Officer (CEO). Dr. Lünneemann started in his new role on January 1<sup>st</sup>, 2026.**

With more than 20 years of international experience in the lighting, automotive, and display industries, Dr. Lünneemann brings extensive expertise in leading global business units. His career includes various leadership positions in medium-sized technology companies as well as global matrix organizations, including roles as CEO of OSRAM OLED GmbH, Docter Optics SE, and NovaLED GmbH. His professional responsibilities have involved assignments in the USA, China, Korea and other international markets.

Dr. Lünneemann holds an Executive MBA and earned a PhD in physics with a focus on light, optics and solid-state physics. His areas of expertise include strategy, organizational and business development as well as portfolio and M&A management.

*“We are very pleased to welcome Dr. Marc Lünneemann, an experienced and internationally connected technology expert, as the new CEO of Instrument Systems. With his expertise and strategic visionary leadership, he will be a key driver of our company’s future development.”* – Dr. Yuta Yamanoi, Managing Director Instrument Systems GmbH

*“I am very much looking forward to shaping the future of Instrument Systems together with a highly experienced and competent team. The company has developed an impressive technological expertise and a global leadership position in light measurement technology – a basis I intend to build on. My goal is to further enhance the company’s innovative strength and actively drive to the its growth in the coming years. I approach this task with respect, but high motivation.”* – Dr. Marc Lünneemann, CEO Instrument Systems GmbH

### **About Instrument Systems GmbH**

Instrument Systems GmbH, founded in Munich in 1986, develops and produces high-end light measurement technology that is indispensable for manufacturers of consumer electronics, (AR/VR) displays, MicroLED wafers, VCSEL/laser systems, automotive lighting and LED/SSL modules. All solutions benefit from the CAS series of high-precision spectroradiometers that are widely recognized and used worldwide. In combination with 2D imaging colorimeters, integrating spheres and goniometer systems, they enable high-precision and accurate measurements in the entire range from UV to IR, traceable to PTB or NIST. Today, Instrument Systems is one of the world's leading manufacturers of light measurement technology. At its Berlin facility, the "Optronik Line" of products is developed and marketed for the automotive industry and traffic technology. The subsidiary in Korea supplements the product portfolio with the "Kimsoptec Line" for the Korean light & display market. Instrument Systems has been a wholly-owned subsidiary of the Konica Minolta Group since 2012.
