### \\ HIGHLIGHTS AT A GLANCE

- ▲ Blue Light Hazard – How Dangerous is LED Illumination?
- ▲ Light Measurement Technology Seminar on 26-27 November 2018
- ▲ Live Expert Lectures

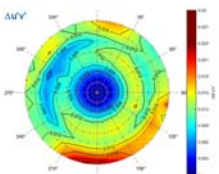

### \\ STORY OF THE MONTH

## Blue Light Hazard – How Dangerous is LED Illumination?

A well-known topic has regained momentum and is currently discussed at this year's trade fairs: How dangerous is blue light hazard caused by LED illumination? Latest technological developments offer a fast and easy way for the verification of light sources. Learn more about this hot topic by reading a comment by Dr. Thomas Attenberger.

### Light Measurement Technology Seminar on 26-27 November 2018

We are organizing our popular education seminar "Light- and Display Measurement Technology in Theory and Practice" in 2018 again. Keep the new date already in mind:

**26-27 November 2018**  
in Courtyard by Marriott Munich East

All further details and an interesting report about our previous seminar in 2017 can be found online.
