

Press Release

Change in Management at Instrument Systems

Yasumasa Kuboyama succeeds Tsutomu Ogasawara as Managing Director at Instrument Systems.

Munich, April 2023 – *As of 14 April 2023, Yasumasa Kuboyama will be taking over the position of the Managing Director from Tsutomu Ogasawara. Together with CEO Dr. Markus Ehbrecht he will form the new Instrument Systems management team. In his new role, for the next years he will continue to promote the strong connection between Konica Minolta and Instrument Systems. His predecessor Tsutomu Ogasawara will be returning to Japan to assume managerial tasks in the business unit Konica Minolta Sensing, of which Instrument Systems is part.*

Yasumasa Kuboyama will be taking over the position of the Managing Director from Tsutomu Ogasawara as of 14 April 2023, to form the new management team at Instrument Systems together with CEO Dr. Markus Ehbrecht. He joined Konica Minolta Sensing Head Quarter in 2017 after four years' experience in Singapore and Thailand subsidiaries with printing business and he had been Head of the Konica Minolta Sensing Global Group Management Department since 2021.

In his new role he will continue to promote the strong connection between Konica Minolta and Instrument Systems for the next years. "I look forward to the new responsibilities and challenges, and am eager to tackle the projects that await me at Instrument Systems!" says Yasumasa Kuboyama.

Dr. Markus Ehbrecht welcomes Yasumasa Kuboyama to his new position. In the regular change in the double leadership of Instrument Systems, he is pleased to further develop the existing corporate strategy together with Kuboyama and to shape the future with new perspectives.

Tsutomu Ogasawara has acted as Managing Director of Instrument Systems in Germany since December 2016. During this time, he was committed to close cooperation between the parent company Konica Minolta and subsidiary Instrument Systems. With over 25 years of experience in various sales-oriented functions at Konica Minolta in Japan and Germany, he has been instrumental in the success of Instrument Systems. His new responsibilities will be in the management of Light & Display and Color & Appearance Business within Konica Minolta Sensing in Japan, which also includes Instrument Systems.

Company profile of Instrument Systems GmbH

Instrument Systems GmbH, founded in Munich in 1986, develops, manufactures and markets all-in-one solutions for light measurement applications. Its core products are array spectrometers and imaging colorimeters. The company's main fields of activity are LED/SSL and display metrology, spectral radiometry and photometry, as well as laser/VCSEL characterization where today Instrument Systems is one of the world's leading manufacturers. The Optronik line of products for the automotive industry and traffic technology is developed and marketed at its Berlin facility. Instrument Systems has been a wholly-owned subsidiary of the Konica Minolta Group since 2012.
