

Press Release

New Managing Director at Instrument Systems

As of 2 April 2024, Dr. Yuta Yamanoi will be assuming the position of the Managing Director at light measurement technology manufacturer Instrument Systems in Munich.

Munich, April 2024 – *On 2 April 2024 the position of the Managing Director passes from Yasumasa Kuboyama to Dr. Yuta Yamanoi, who together with CEO Dr. Markus Ehbrecht will form the new Instrument Systems management team. In this new role he will further strengthen the cooperation between the Konica Minolta subsidiaries of the Sensing Business Unit with its Light & Display and Color & Appearance division, which also includes Instrument Systems. His predecessor Yasumasa Kuboyama will be moving back to Japan to take over a new department in Konica Minolta Sensing business unit.*

On 2 April 2024 the position of the Managing Director passes from Yasumasa Kuboyama to Dr. Yuta Yamanoi, who together with CEO Dr. Markus Ehbrecht will form the new Instrument Systems management team. Dr. Yuta Yamanoi has distinguished himself through more than two decades of professional experience in the field of color and light measurement technology. After eight years in the development department at Konica Minolta Sensing in Japan, in 2016 he transferred to Konica Minolta Sensing Americas Inc. as Business Development Manager. In this capacity he also took over the support of key account customers in the IT segment. Most recently, he was Senior Manager for Strategic Planning in Light & Display and Color & Appearance division of Konica Minolta Sensing Business Unit in Japan. As a scientist with a PhD in “Earth and Space Sciences” he thus disposes of extensive and highly relevant know-how in the business area of the wholly-owned Konica Minolta subsidiary Instrument Systems.

In his new role, over the next few years he will continue to promote the cooperation between the Konica Minolta subsidiaries of the Sensing Business Unit with their Light & Display and Color & Appearance division, which also includes Instrument Systems. Dr. Markus Ehbrecht welcomes Dr. Yuta Yamanoi to his new position. In the course of the regular change in the double leadership he is looking forward to strengthening the company together with Dr. Yuta Yamanoi for the volatile market situation, creating new added value for the customers.

The departing Yasumasa Kuboyama has been Managing Director of Instrument Systems in Germany since April 2023 and is now taking over a new department in Konica Minolta Sensing business unit in Japan.

Company portrait Instrument Systems GmbH

Instrument Systems GmbH, founded in Munich in 1986, develops and produces high-end light measurement technology that is indispensable for the manufacturers of consumer electronics, (AR/VR) displays, μ LED wafers, VCSEL/laser systems, automotive lighting and LED/SSL modules. All solutions benefit from our CAS series of high-precision spectroradiometers that are recognized and in use all over the world. In combination with 2D imaging colorimeters, integrating spheres and goniometer systems, they enable high-precision and accurate measurements in the entire range from UV to IR, traceable to PTB or NIST. Today, Instrument Systems is one of the world's leading manufacturers of light measurement technology. At its Berlin facility, the "Optronik Line" of products is developed and marketed for the automotive industry and traffic technology. Our subsidiary in Korea supplements the product portfolio with the "Kimsoptec Line" for the Korean light & display market. Instrument Systems has been a wholly-owned subsidiary of the Konica Minolta Group since 2012.
